ABOUT US

DELIVERING
EXCELLENCY
SINCE 1999

Website Developers India empowers businesses with the help of the right and advanced technologies, streamlining internal processes and increase end-customer interactions, for almost 21+ years now.

As a Global Software Development Company, we believe in developing and in Building advanced websites with appealing designs, great development, and mobile apps with the help of the latest technologies and Digital Marketing Services.

We proudly build on strategies and processes, with the help of Agile Scrum that helps our clients achieve their desired goal and take their business and our relation with them to the next level. This bond has helped us as a Web Development Company to create and have a relationship of trust and security.

We've been awarded as The Best Digital Customer Experience Company and have received multiple awards, accolades, and recognitions from top brands and tech magazines. Our expertise and processes ensure the highest quality deliveries within the budget.

NOTE FROM THE CEO

The WDI business model is our platform for success. I have always believed that when it comes to defining and communicating a corporation's vision and goals, conciseness is a virtue. We believe no one has a monopoly on good ideas, and, in order to grow professionally, we hold a team to back the company with!

Ritesh Pandey

Founder and Chief Executive Officer
Website Developers India Pvt. Ltd

Card Stock Exchange

www.cardstockexchange.com

USA

A GLOBAL TRADING CARD STOCK EXCHANGE

Offering Millions of Trading Cards

With Pragmatic Accounts for Easy Transactions.

About Project

Card Stock Exchange is an online stock market for trading cards. A platform that will enable users around the globe to purchase and sell trading cards, the same way as it is done with buying and selling stocks.

Services

- Scoping
- Prototype
- UI/UX Design
- Quality Assurance
- Security Audit
- Development
- Mobile App
- Digital Marketing
- Support & Maintenance

Solutions

We have built responsive website with essential features like updatable index filters, smoothening trading functions, push notifications, watchlists, etc with backend and frontend development of the website, along with exceptional eye-catching website designing.

Technologies Used

CodeIgniter   jQuery   Bootstrap   Maria DB   HTML 5   CSS 3

Ajax

Features

| Trading Card Market Place | Shopping Cart | Chat |

| Notifications | Athlete Profiles | Online trading | Payment Gateway |

| Search Algorithm | Paid Membership | Shipping & Tracking |

Highlight Achievements

- Custom Card Trading Portal Development.
- Integration of Shipping API.
- Delivery API.
- Custom API Development
- Escrow Payment Method Development.

Testimonial

We were in a fix in understanding ways and solutions on who could provide us the best platform in keeping these humongous cards in front of the world. This sure needed a cool-headed team. WDI was just the one!

- Zachary Lynch, FOUNDER

Our Development Methodology

Proof of Concept - PoC

Right from building a viable POC to setting up a well-developed decentralized application, our solutions are customized to meet the defined needs and can be deployed both on mobile and web app.

Minimum Viable Product - MVP

We work on transforming your idea into a primitive product, further scaling it into a full-blown app with real customer insights. Our team of Agile Specialists, find your product-market fit and measure as per the feedback served by the users with MVP Development.

DevOps

Website Developers India offers DevOps tools that help your team adopt the best of its practices that includes core version control software and a dedicated team that works tirelessly in providing you with the success you deserve.

CD and CI using Agile

With the use of CI, we develop a consistent strategy to create and test your software automatically. Whereas, the use of CD ensures that all code changes, whether configuration modifications, bug fixes, or feature upgrades, can be deployed to production.
